Proposals

FOR Publishing by Subscription, and now ready for the press, a series of historical volumes, which when finished will assume the title of
Universal History Americanised;
Or, an historical view of
Europe, Asia, Africa and America,
from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.
BY DAVID RAMSAY, M. D.
"Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence." *Sir William Jones.*

PROSPECTUS.

ASIA.
The Asiatic part of this work contains a general view of the antediluvians—of the general deluge—of the re-settlement of the Globe after that great event—of the primitive postdiluvian nations which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.
AFRICA.
The African part, contains a concise history of Egypt, Carthage, Numidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.
EUROPE.
The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.
AMERICA.
The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time.—The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines.
It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for $3 1-3 per volume, in sheep binding, or $4 1-3 Calf Gilt, to be paid for on delivery.
AUTHORITIES.
This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the Globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.
UNITED STATES.
The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.
The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANHOPE SMITH, which brings it down to the close of the last war.
The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 18 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex: to them its success is a matter of deep importance.

Agricultural.

[We extract an article on Agriculture, from a little work by Judge Peters, entitled "Notices for a Young Farmer" We intend occasionally to make further selections. [*Village Record*

Break up deep, and be not afraid of turning up barren soil; when the nature of your ground admits of this operation. Shallow ploughing up the vegetable mould deceptiously serves a turn, when it is not exhausted; and its exhaustion is the certain consequence of this ill-judged tillage. But the air contains the principal store of materials for the food of plants, and will impregnate the substratum, if exposed a due length of time; especially in winter, when it receives much and parts with little—the heat of the sun being then feeble, and incapable of dispelling what the soil receives from the air. Those who object to deep, much more to trench ploughing, want experience sufficiently to test their benefits. They have mismanaged experiments, or have been in too great haste to crop their grounds.

The substratum must be exposed for a time necessary to receive the influence of the atmosphere. Indian Corn, with lime, is by far the best crop, after trenching particularly; because it requires the soil to be constantly stirred and exposed: true, there are some soils which neither deep nor trench ploughing will benefit; and every farmer should accommodate his practice to the nature and qualities of his soil. Over cropping and shallow ploughing, with exhausting crops in succession, frequently cause overwhelming growths of sorrel to infest ill managed fields. Lime is the only remedy; and you will see in Lord Dundonald's "Connexion," &c. the good effects of lime—which destroys the sorrel, and produces the sorrelline acid, highly friendly to profitable and wholesome vegetation.

Green sorrel grows on fertile soil; but the red sorrel is a certain proof of sterility.

Never sow a foul or weedy soil to save ploughing; or a wet one to save time:—nor sow or stubble in one chaff bearing crop, immediately to follow another—Such farming may succeed for a time under particular circumstances; but in the end, it will produce only a crop of regret.

An experiment has been made to ascertain the difference between dew-water and rain-water, by putting an equal quantity of each in different vessels, and setting them in the sun to dry away. The result was, that the sediment (or settlings) of the dew, were in greater quantity, blacker and richer, than that on the rain-water.

Dew is therefore more fertilizing, and this is the reason why lands will be more benefited by being constantly ploughed when the dew is in them.

A writer in the N. Y. Evening Post recommends, as a remedy against the worm which produces the blotches in plumb and peach trees, to lay the roots bare where they join the trunk, in the months of November and April, and anoint them with a mercurial ointment—commonly called "Itch Ointment," about an ounce to a tree.

PURSUING THE DEAD.

It appears from an article in a Vermont paper, that such was the anxiety to obtain the body of Samuel E. Godfrey for dissection, who was executed at Woodstock, (Ver.) on the 13th February, that it was necessary to resort to an expedient to prevent it. A coffin was prepared and a suitable stick of wood put therein, which, accompanied by armed men, was carried a distance of several miles, and left in a barn for safe keeping. In the mean time, the body of Godfrey was put into a garret at Woodstock, to be saved for his friends, where it appears to have remained during the cold season, but has latterly been interred by his connexions.

ALEXANDRIA:
FRIDAY, APRIL 10, 1818.

FROM OUR CORRESPONDENT AT WASHINGTON.

Thursday, April 9, 1818.

Nothing worth announcing passed yesterday in the house of representatives.—The bill for the relief of the sufferers on the Niagara frontier was taken into consideration in a committee of the whole, and ended in its being reported to the house with some amendments; on which the house adjourned.

A motion to amend the bill by allowing fifty per cent, to *real* sufferers of a certain description, produced a debate, in which Mr. Colston, Mr. Mercer, Mr. Clay, and some other, bore a share—it produced some warmth. The circumstances of which it would be useless, and must therefore seem invidious, to particularize. The chief ground of opposition to the bill was the tendency it would have to lay open a wide door to imposition, and to burthens on the treasury, to which it was difficult to see an end.

The citizens of Detroit have petitioned Congress to offer for sale the public lands in the Michigan territory. They state that the territory extends nearly 350 miles from east to west; that the Indian title has for some years been extinguished to a considerable part of it; that it abounds in large tracts of valuable and fertile soil, fitted to invite emigrants to the country, and capable supporting populous and compact settlements, &c.

FROM CADIZ.

Captain Pitt, who arrived this morning, in the ship Scioto, 36 days from Cadiz, informs, that the Russian fleet, of five 74's and four frigates, arrived at Cadiz on the 23d February, four days before he sailed; as also two valuable ships from Lima, with dollars, &c. Flour at Cadiz and Gibraltar $9 50, and dull.

NEWSPAPERS.

Newspapers are said to be infallible thermometers by which we can ascertain the heat or coldness of the political atmosphere. Judging from the present appearance of that thermometer, the atmosphere is unusually temperate. England does not, if we may judge from the same standard, show the same degree of temperature. The suspension of the habeas corpus is repealed, and those who were arrested and confined on suspicion are now suffered to go at large. Some of these men, when the doors of their prisons were thrown open, have actually refused to depart. They demand to know the crime for which they were arrested, and the names of their accusers. This the magistrate is not authorised to impart; and the suspected persons, on the other hand, declare that without such information they will not even accept of the proffered liberation. In the mean time all the spindles in the vast and complicated manufactory of popular discontent are set in motion again. The old patriots, Burdett, Cochrane, Wooller, and others, have opened subscriptions for the relief of those who were confined by the suspension of the habeas corpus act. Inflammatory speeches, resolutions and addresses are pouring from the press.—What will be the issue of this state of things, we presume not to say—whether it will fret its hour away in patriotic vaporing in the public papers, or render a suspension of the habeas corpus act again necessary, time will determine.

From the Philadelphia Aurora.

SPAIN.

We have been favored with the Madrid Gazettes of the latter end of February and beginning of March, and a letter of a friend at Algesiras, of the first of February, of which the following are extracts:

"The Gazette of the 29th Jan. contains an extract from the President's message, and no doubt will amuse you, at least that paragraph which speaks of the relations between our country and Spain, and the last paragraph is in direct contradiction with the message. This is, however, merely to blind the eyes of the unfortunate people of this country, who not being permitted to read any other public papers, receive as gospel all that is contained in the government Gazette.

"The accounts given officially by general Murillo, in the same paper, under date Gumana, 28th August, 1817, of the military operations at the island Margaritta, are interesting, and give the strongest possible proof that the people of that portion of Spanish America seem determined to obtain their emancipation.

"The last Gazette gives a deplorable glance at affairs in Mexico; royal authority there must be on its last legs. The same paper also contains the story of the late horrid transactions at Algiers.—I know no government in these parts which bears so strong a resemblance to Algiers, as that of this unfortunate country. It is impossible to describe to you the state of things here—and the miracle is, how they exist at all. About two weeks ago, the captain-general of Andalusia called a meeting of the principal merchants of the city of Cadiz, and stated to them that the troops were without food. Pay has long been out of the question: all the army is reduced to half pay, and of that half, seldom one third is paid monthly. The colonels of the regiments had represented that they could not answer for the consequences, if money was not given to provide the miserable rations which are now served out to the troops.—Fifteen thousand dollars was raised in Cadiz—a paltry resource, which can only prolong the evils a few days or weeks. The entries in the custom house do not amount in one month to what they usually did per day. In this wretched place also misery resides. I shall cross over to Gibraltar to-morrow.

"A few days past, when I was at Cadiz, a royal order had been communicated to the tribunal of the consulado of that city, declaring Cadiz, Alicant, Corunna and Santander, free ports of transit or deposit, and the consulado are to form the regulations. I understand that a duty of 5 per cent. is to be exacted upon all goods.—I feel however very confident that little or no good can be expected from the measure, as so many clogs will be put on, that it will be a free port only in name. You will be surprised to find that the consulado, which is composed of all the Spanish merchants of that city who are not registered, has been the very corporation which most opposed the measure of making that a free port—and as the regulations under which it is to be free are left to them, there is no doubt but that they will be so made out as to make the concession perfectly nugatory, and Gibraltar, which boasts of no custom house, must long ride triumphant over their ignorant neighbors.

"I also send you a copy of the treaty concluded between Spain and England, for the abolition of the slave trade."

The Madrid Gazette gives the following sentence only in relation to the United States and Spain:

"The address goes on to manifest in the President a disposition most friendly in that government towards Spain."

New-York, April 3.

We have received Halifax papers to the 21st March. Some extracts will be found below. The British packet Grace Capt. Vivian, arrived at Halifax on the 16th, in 5 days from N. York, and was to sail for England on the morning of the 21st. The brig Commerce and schooner Concord, had arrived from Boston.

The Chronicle of the 20th states, that the governor had given his assent to "an act to amend and continue the several acts imposing a duty on articles to be imported from the U. States of America."

Halifax, March 20.

During the last three or four days, two petitions, one for, and the other against, the extention of the trade, between this province and the American states, have been handed about the town for signature; which have been signed, of course, as interest or opinion dictated. We know, that there are many well informed persons, who think that trade in general should be laid under as few restraints as possible; and who would rather sign a memorial or petition to government, for granting to Halifax all the advantages of a free port. The flourishing cities of Quebec and Montreal boast, already, of the great advantages of their inland trade with America; and although this province is not quite so eligibly situated in that respect; yet, if it were once so, that the overplus of our importations from the W. Indies or elsewhere, might be shipped to advantage, and form a counterbalance to the heavy demand for flour and other articles from the American states, we should soon feel the great benefit of such a course of trade. And even our farmers and graziers would soon perceive vast advantages resulting from the increased population and affluence of the capital. The commercial treaty or convention between G. Britain and America, will expire in little more than a year from this time. In the interim, the American government will endeavor by every means in their power to lay restrictions on the trade of these provinces; and those persons who think that any thing can be done to promote the interest of the colony, have no time to lose.

Boston, April 2.

FROM CALCUTTA.

By the ship Cadmus, at Newport from India, we have received from our correspondent the papers of Calcutta to the 19th of Nov. the day on which the ship sailed. We have been favored with papers of the same date by captain Rich, a passenger in the Cadmus. Extracts follow:

Calcutta, Nov. 5.

It is reported that just as the Helen was about to sail from Macoa, accounts were received that the captains of vessels had all gone on board their ships, and addressed the supercargoes on the subject of a search claimed by the Chinese, wishing to know whether, in the event of any attempt to carry this into execution, they should resist it by force. The answer of the supercargoes we have not learnt.

Calcutta, Nov. 6.

Extract of a letter from China, dated Aug 25:—"You will, of course, have been apprised of an American ship having been boarded by a gang of thieves in Macoa Roads, who killed 5 of her crew, and stole 25 chests Turkey opium and a cask of dollars. The offenders were afterwards taken, and 5 of them suffered death, agreeably to the Chinese law—life for life. *The Hong merchant, who generally serves the Americans, was squeezed by the Chinese government for* 150,000 *tales.* The Hong merchant, after this, endeavored to compel all our commanders to give bond, making themselves liable for the whole, if detected smuggling. From the judicious interference of the select committee it has been got over.—The trade, however, was stopped for 3 weeks.

"55,500 bales of cotton have arrived from India, and 128,500 bales are expected."

TREATY WITH SCINDIAH.

General orders by his excellency the governor general.

Camp Mahewa, Nov 7.

The governor general has great pleasure in announcing to the army that the Maha Raja Dowlut Rao Scindeah signed a treaty, by which his highness engages to afford every facility to the British troops in pursuit of the Pindarees through his dominions, and to co-operate actively towards the extinction of those brutal freebooters. In consequence the troops and country of his highness are to be regarded as those of an ally.

The generous confidence and animated zeal of the army may experience a shade of disappointment in the diminished prospect of serious exertion, but the governor general is convinced that the reflection of every officer and soldier in this army will satisfy him that the carrying every desired point by equity and moderation is the proudest triumph for the British character.

A royal salute is to be fired from the artillery park in honor of this event at 8 to-morrow morning.

By command of his excellency the governor general.

(Signed) J. ADAM, Sec. to the Gov.

We are sorry to state, that in one of the divisions engaged in effecting the annual repairs of the military road, of the regular monthly establishment, (consisting of about 300 men) one hackery man, nine peaddas, and twelve builders, died on the 2d inst. of cholera morbus; and when the last report was made, 89 were laboring under this most dreadful disease. This happened near the east bank of the Soane, and the report states that the mortality is great in the neighboring village.

FROM ST. JOHN, N. B.

We were yesterday favored with papers from St. John, N. B. to the 11th ult. received at Merchants' Hall.

A difference appears to exist at New Brunswick between the council and house of assembly as to the bill respecting the plaster law. The former are willing to repeal, but contend that the act must be submitted to the prince regent before it takes effect. We have no account of this condition being suggested in Nova Scotia when the law was repealed there.

The legislature of New Brunswick have recently had before them what they considered a case of a breach of privilege. They arraigned Mr. Durant, a printer, for an objectionable publication. He declared no offence was intended by him, and gave up the name of Stephen Humbert, esq. a member of the house, as the author. Mr. H. said he considered the printer as inserting it on his own responsibility. The house immediately declared Mr. Humbert's seat vacated.

Died,

In the 61st year of his age, on the 25th March last, at the house of a friend, on Cumberland Island, Georgia, on his return from the West Indies to his native state, Virginia, Major-General HENRY LEE, a conspicuous officer in the Revolutionary Army.

He entered as a captain of cavalry, in the Virginia line, at the age of 19, in which situation he soon commanded the respect and attention of his country, by his active and daring enterprize, and the confidence of the illustrious commander in chief of the military forces of the U. States; a confidence which continued through life. He was rapidly promoted to the rank of Major, and soon after to that of Lieut. Col. Commandant of a separate legionary corps. While Major, he planned and executed the celebrated attack on the enemy's post at Powles Hook, opposite to the city of N. York; their head-quarters; surprized and took the garrison, under the eye of the British army and navy, and safely conducted his prisoners into the American lines, many miles distant from the post taken. There are few enterprizes to be found on military record, equal in hazard or difficulty, or conducted with more consummate skill and daring courage. It was, too, accomplished without loss, filled the camp of the enemy with shame and astonishment, and shed an unfading lustre on the American arms. Sometime after, he accompanied Gen. Greene to the southern department of the U. States, subsequent to the memorable and disastrous battle of Camden, which reduced under the power of the enemy the three states of North Carolina, South Carolina, and Georgia. The many brilliant achievements which he performed in that difficult and arduous war, under this celebrated and consummate commander, it is not necessary to enumerate; they are so many illustrious monuments of American courage and prowess, which in all future ages, will be the theme of historic praise—of grateful recollection by his countrymen, and of ardent imitation by every brave and patriotic soldier. Those states were recovered from the enemy. The country enjoys in peace, independence and liberty, the benefits of his useful services. All that remains to him, is a grave and the glory of his deeds.

At the close of the revolutionary war, he returned to the walks of civil life. He was often a member of the legislature of the state of Virginia; one of its delegates to congress under the confederation, and one of the convention which adopted the present constitution of the United States, and which he supported; three years governor of the state, and afterwards a representative in the congress of the United States, under the present organization.

While governor of Virginia, he was selected by President Washington, to command the army sent to quell the insurrection which had been excited from untoward and erroneous impressions in the western counties of Pennsylvania, in which he had the felicity to bring to order and obedience the misguided inhabitants without shedding the blood of one fellow citizen. He possessed this peculiar characteristic as a military commander, of being always careful of the health and lives of his soldiers, never exposing them to unnecessary toils or fruitless hazards, always keeping them in readiness for useful and important enterprizes.—Every public station to which he was called he filled with dignity and propriety.

In private life he was kind, hospitable and generous. Too ardent in the pursuit of his objects—too confident in others, he wanted that prudence which is necessary to guard against imposition and pecuniary losses, and accumulate wealth. Like many other illustrious commanders and patriots, he died poor.

He has left behind him a valuable historical work, entitled "Memoirs of the War in the Southern Department of the United States," in which the difficulties and privations endured by the patriotic army employed in that quarter—their courage and enterprize, and the skill and talents of their faithful, active, and illustrious commander, are displayed in never fading colors; a work, to use the language of the publishers, by the perusal of which "the patriot will be always delighted, the statesman informed, and the soldier instructed; which bears in every part the ingenuous stamp of a patriot soldier; and cannot fail to interest all who desire to understand the causes, and to know the difficulties of our memorable struggle. The facts may be relied on, 'all of which he saw, and part of which he was.'"

Fortune seems to have conducted him at the close of his life, almost to the tomb of Greene, and his bones may now repose by the side of those of his beloved chiefs friends in life, united in death, and partners in a never dying fame. B.

REGIMENTAL COURT.

First Regiment, 2d Brigade, Militia D Col. March 14, 1818.

Ordered, That the officers of the regiment strictly enforce the 27th section of the militia law of the District of Columbia at the ensuing musters of the present year; and that the adjutant publish in the newspapers of the town a copy of the law, and the order in relation thereto as passed by the legionary court of inquiry of the 17th March, 1803, and approved by the brigadier general.

Section 27. And be it further enacted

That all non-commissioned officers and privates, belonging to the battalion company, shall appear when on duty uniformly clothed, the color and fashion of which uniforms to be determined on for the respective legions by the first legionary courts of enquiry which shall be held, and to be approved of by the brigadier general, provided the expense of the same, additional to that of the usual ordinary cheap clothing, does not exceed five dollars for each person; and every such non-commissioned officer, or drummer, or fifer, or private, appearing at any muster held after three months from the time that such uniforms shall have been determined on, and the order relative thereto shall have been published in some newspaper within the legionary district, and not wearing the same, shall be fined five dollars for each offence, unless he can make it appear to the satisfaction of the court of inquiry of the battalion to which he may belong, that he is unable to equip himself.

Legionary court of enquiry, 2d legion militia District of Columbia, March 17, 1803.

Ordered, That the uniform of the battalion companies of the 2d legion of militia of the District of Columbia be a dark blue coat of ordinary length, cape and appels of the same, and white metal buttons, with white waistcoat and pantaloons, round black hat and shoes.

Re-sale of Valuable Lands,

FOR READY MONEY.

THE terms of a former sale not having been complied with, in pursuance of a decree of the United States' circuit court of the District of Columbia, for the county of Alexandria, directing a re-sale of the tract of land called the Glebe Lands, in case the terms of the former sale should not be complied with, we, the subscribers, shall, as commissioners under the decree of the circuit court of the District of Columbia, for the county of Alexandria, expose to sale for ready money at public auction, on Saturday the 18th day of April next, on the premises, that desirable Tract of Land, in the county of Alexandria commonly called the Glebe Lands, situate about 2 miles from Georgetown ferry and 7½ from Alexandria, containing 566 acres, by survey;—one half of which is well timbered with oak, hickory and chesnut. It is handsomely situated, good water, and a fine young orchard of the best selected apples and cherries. The land will be sold agreeably to survey, more or less. The title papers may be seen at any time on application to the subscribers. The sale to commence at 12 o'clock.

Sully for Sale.

THIS Estate, situated in the county of Fairfax, twenty two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaister of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation, and those now untilled are covered with red clover. The orchards are very large and thrifty; the collection of table fruits choice and various. The mansion is spacious and well constructed: the outhouses are conveniently situated, and the whole have been lately thoroughly repaired and painted. The farm houses which are all nearly new, are expensive and excellent in their kind.

For a gentleman of leisure this would be a delightful residence; and a profitable estate for an active farmer. The title is indisputable, and perfectly unincumbered.

A number of well taught usderly young men, with good stocks and farming utensils of all kinds and the crops of the present year if desired, will be at the command of the purchaser.

Application may be made to the subscriber, living on the premises, next the post-office at Pleasant Valley, Fairfax

French Creek Boarding School

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL for GIRLS.—With this view I have purchased the FRENCH CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pikeland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniencies for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.—The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

Fan-Sash Making

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills,

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samue Lee, patentee, &c. I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water.

For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle

Dr. Rawson's Genuine Itch Ointment.

A certain and safe cure for that disagreeable complaint, as well as other irruptions of the skin. Price 37½ cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters.

For weakly and infirm constitutions. Price 37½ cents a box.

Hinckley's Infallible Remedy for the Piles,

A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste,

For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache,

Which, in almost every case, gives instant relief in that distressing complaint. Price 37½ cents a bottle

Cooley's Vegetable Elixir, for Coughs, Asthmas, Consumptions, &c.

A very valuable medicine in those complaints. Price 50 cents a bottle

For sale, in Alexandria, by Dr. *Rich'd H. Litle*; in Washington City, by Dr. *David Ott*; in Georgetown, by Dr. *John Ott, Otho W. Linthium & Co.* and *Nathaniel Jewett.*

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from *LEE's MEDICINE STORE,* No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary its particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terez or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN's ANTI BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	Indigestion
Lowness of spirits	Melancholy
Loss of appetite	Gout in the stomach
Impurity of blood	Pains in the limbs
Hysteric'l affection	Relaxations, etc.
Inward weaknesses and debility	

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
